## DESCRIPTION

List information about fingerprints data in *SD*, *FP* and *CSV/TSV* text file(s): number of rows containing fingerprints data, type of fingerprints vector, description and size of fingerprints, bit density and average bit density for bit-vector fingerprints strings, and so on.

The scripts InfoFingerprintsSDFiles.pl and InfoFingerprintsTextFiles.pl have been removed from the current release of MayaChemTools and their functionality merged with this script.

The valid *SDFfile* extensions are *.sdf* and *.sd*. All SD files in a current directory can be specified either by *\*.sdf* or the current directory name.

The valid *FPfile* extensions are *.fpf* and *.fp*. All FP files in a current directory can be specified either by *\*.fpf* or the current directory name.

The valid *TextFile* extensions are *.csv* and *.tsv* for comma/semicolon and tab delimited text files respectively. All other file names are ignored. All text files in a current directory can be specified by *\*.csv*, *\*.tsv*, or the current directory name. The --indelim option determines the format of *TextFile(s)*. Any file which doesn't correspond to the format indicated by --indelim option is ignored.

Format of fingerprint strings data in *SDFfile(s)*, *FPfile(s)* and *TextFile(s)* is automatically detected.

List average bit density of fingerprint bit-vector strings.

**--BitDensity**

List bit density of fingerprints bit-vector strings data in each row.

**--count**

List number of data entries containing fingerprints bit-vector or vector strings data. This is default behavior.

**-c, --ColMode *ColNum* | *ColLabel***

Specify how columns are identified in CSV/TSV *TextFile(s)*: using column number or column label. Possible values: *ColNum* or *ColLabel*. Default value: *ColNum*

**-d, --detail *InfoLevel***

Level of information to print about lines being ignored. Default: 1. Possible values: 1, 2 or 3.

**--DataCheck**

Validate fingerprints data specified using **--FingerprintsCol** and list information about missing and invalid data.

**-e, --empty**

List number of rows containing no fingerprints data.

**--FingerprintsCol *col number* | *col name***

This value is -c, --colmode specific. It corresponds to column in CSV/TSV *TextFile(s)* containing fingerprints data. Possible values: *col number* or *col label*. Default value: *first column containing the word Fingerprints in its column label*.

**--FingerprintsField *FieldLabel***

Fingerprints field label to use during listing of fingerprints information for *SDFFile(s)*. Default value: *first data field label containing the word Fingerprints in its label*.

**--FingerprintsType**

List types of fingerprint strings: FingerprintsBitVector or FingerprintsVector.

**--FingerprintsDescription**

List types of fingerprints: PathLengthBits, PathLengthCount, MACCSKeyCount, ExtendedConnectivity and so on.

**--FingerprintsSize**

List size of fingerprints.

**--FingerprintsBitStringFormat**

List format of fingerprint bit-vector strings: BinaryString or HexadecimalString.

- FingerprintsBitOrder  
List order of bits data in fingerprint bit-vector bit strings: Ascending or Descending.

List format of values in fingerprint vector strings: ValuesString, IDsAndValuesString, IDsAndValuesPairsString, ValuesAndIDsString or ValuesAndIDsPairsString.
- h, --help  
Print this help message.
- InDelim *comma | semicolon*  
Input delimiter for CSV *TextFile(s)*. Possible values: *comma* or *semicolon*. Default value: *comma*. For TSV files, this option is ignored and *tab* is used as a delimiter.
- NumOfOnBits  
List number of on bits in fingerprints bit-vector strings data in each row.
- NumOfNonZeroValues  
List number of non-zero values in fingerprints vector strings data in each row.
- w, --WorkingDir *DirName*  
Location of working directory. Default: current directory.

## EXAMPLES

To count number of lines containing fingerprints bit-vector or vector strings data present in FP file, in a column name containing Fingerprint substring in text file, and in a data field with Fingerprint substring in its label, type:

```
% InfoFingerprintsFiles.pl SampleFPBin.csv
